Business Highlight

SICT is Thailand's only listed company specializing in high-quality RFID microchip design and development. With international recognition and sales in 40 countries, the company focuses on continuous R&D to serve leading global RFID manufacturers and develops talent to support future growth.

Performance and Analysis

Business Performance Summary

Revenue from sales and services for the six-month period of 2025 totaled 391.68 million baht, representing a decrease of 16.34 million baht or 4.0% year-over-year due to lower Industrial IoT and Immobilizer sales, partially offset by increased Animal ID revenue. Gross profit margin improved to 44% from 43% through enhanced cost structure analysis and pricing strategies. Other income for the period was 0.55 million baht, down 6.73 million baht due to increased recognition of realized and unrealized foreign exchange losses resulting from Thai baht strengthening. Selling and administrative expenses rose 14.17 million baht to 104.67 million baht, driven by higher salary expenses, employee benefits, R&D expenses, and FX losses (5.63 million baht). Finance costs decreased 2.53 million baht from loan repayments. The Company recognized its 25% share of profit from Adaptrix Co., Ltd. in the amount of 0.02 million baht, as the subsidiary began generating continuous revenue and operating profits. Net profit was 66.02 million baht, down 26.0% year-over-year, with net margin declining from 22% to 17% due to increased salary expenses, employee benefits, research and development expenses and foreign exchange volatility.

Key Milestones

- 2023-2025: Received organization's carbon footprint certification.
- 2024: Established a joint venture, Adaptrics Company Limited in which the company holds a 25% stake, to drive the RFID Solution.

Risk Management Policy

Risks from dependency on raw material supplier and main outsourcing manufacturer: The company has risk mitigation measures in place by collaborating closely with its partners in production planning, as well as seeking additional new partners.

Risks from rapid technology changes and changing consumer behaviors: The company's product management and marketing teams are committed to continuously studying global research and emerging technologies. They also monitor business trends and opportunities while exchanging progress on product development plans with key customers and international research institutions.

Risks from R&D investments that do not yield commercial products: The company has an annual research and development budget with a strict approval process to ensure investments are carefully considered and aligned with commercial potential.

Risk from dependent of expert engineer on design of integrated circuit: The company has policies in place to develop knowledge and skills by collaborating with universities in Thailand. Additionally, the company has initiated a retention program to maintain expert engineers and talented employees.

Recent Awards and Recognitions

Awards and Recognitions

- Has recognized by APAC business headlines as Thailand's Most Acclaimed Semi-Conductor Manufacturing Company in 2023.
- Received a rating of "A" from SET ESG Rating 2023.
- Has been selected by Thaipat institute to include in "ESG 100" for 2025, marking the third consecutive of the inclusion.
